

May we introduce ourselves?
Your tyre logistics expert.

*FIEGE – your partner for
service-minded and professional
pan-European tyre logistics*

FIEGE

The World of Logistics

We know how you tread

*Not happy with middle-of-the-road solutions?
Neither are we! FIEGE is your tyre logistics
expert for those special demands. We engineer an
optimised supply chain concept, customised to suit
your needs.*

Our tyre network gives you your competitive lead. Decades of experience and the professional handling of 30 million tyres annually are our hallmark of tyre logistics. Our DIN EN ISO 9001 / DIN EN ISO 14001-certified quality and environmental management system vouches for maximum quality of every process step – throughout Germany, as well as Europe. Our peak performance within tyre logistics frees you up, to dedicate more time to your core operations.

Your advantages

Cost efficiency

Reduced costs thanks to optimised supply chain.

Securing liquidity

Lower risk as a result of costs that are more easily calculated.

Flexibility

Individualised solutions based on industry know-how.

Quality & Security

Optimum storage and consistent availability.

Tyre logistics to perfection

Don't be satisfied with anything less than the best! FIEGE tyre logistics stands for quality of the highest degree. Expeditious and dependable – anywhere you need us.

Warehousing

Handling up to 800,000 tyres at a warehouse is our daily business. Be sure to draw on our experience: for over 30 years we have been storing your tyres with professionalism!

- Precision-fitted and cautious storage
- Automatic feedback about storage to customer via EDI
- Complete order processing
- Controllable FIFO or LIFO processing
- Specific DOT management
- Quality and quantity controls

Quality Management

To get the best out of your value chain we like to know how you operate. Regular meetings and talks allow us to precision-plan and give you feedback. This approach keeps costs down and optimises your stock.

- Maximum flexibility due to early forecasting and / or short-term cushioning of seasonal fluctuations
- Consistent and Continuous Improvement Process (CIP) thanks to standardised KPI and international knowledge transfer

eCommerce Solutions

B2B or B2C – FIEGE supplies professional standards either as a modular, or as an all-in-one solution.

- Webshop solutions
- IT solutions
- Customer service
- Finance options

Value Added Services

FIEGE has the right service for every and any requirement. Tell us about your plans and we will jointly define all VAS – totally customised, to meet your very demands.

- Tyre labelling
- Mounting directly onto rims
- Rigging winter tyres with studs
- Returns management
- Customs clearance (import, export, bonded warehouse)
- and much more

Distribution

No matter where your tyres' destination lies: We are always ready to roll and reach our best times for you.

- Tracking and tracing
- Various distribution centres, graded by size of logistics area, throughput rates and geographic location
- Many years of experience in setting up pan-European distribution networks
- On-Demand Delivery for specialist dealership distribution channel (international)
- 24-hour delivery service – national and trans-border, such as from Germany to Switzerland and the Benelux countries
- Same-Day-Delivery (regional)
- Direct shipment of tyres to end customer

FIEGE

Here's why

FIEGE masters every challenge within tyre logistics. Whether tyre handling to perfection, setting up a new warehouse facility or a complex distribution structure: in FIEGE, you have a genuine professional by your side. See for yourself.

- 11,000 employees at over 200 locations in 17 countries
- Cutting-edge central tyre warehouses offering up to 90,000 m² in storage space
- Processing of over 30 million tyres annually throughout the whole of Europe
- Import and export clearance
- Scheduled daily pan-national services with guaranteed 24h delivery
- Utmost quality
- Individualised Value Added Services (VAS)

Leading brands trust in our logistics

Your contact

We are glad to submit a concept to you which aims at optimising your tyre logistics, in addition to responding to any of your questions.
